Professional Summary

Driven Software Engineer with a B.S. in Computer Science (Software Engineering) and experience designing, developing, and optimizing web, cloud, and automation solutions. Proven expertise in Python, Java, SQL, React.js, Azure, and CL/RPG. Recognized for leading generative AI projects, boosting API efficiency by 1000%, and consistently exceeding performance targets. Seeking to leverage technical skills and collaborative approach in a Software Engineering role.

Work Experience

Associate Technical Engineer

Finastra Philippines Inc

June 2024 – Present, Pasig City, PH

- Ranked first in CL/RPG, SQL, and case-handling training; consistently achieved 120% of KPI targets
- Awarded two hackathon prizes, including a solution that increased API throughput by 1000% through optimized request handling.
- Contributed to a global generative AI initiative project as a lead programmer utilizing Python, ReactJS, and AI/ML techniques while also enhancing user experience.
- Automated repetitive processes using RPG scripts and API integrations, reducing manual effort by up to 90%
- Resolved complex client issues by crafting SQL queries, CL/RPG programs, and performing root-cause analyses.

Automation & Development Intern

CGI Inc.

October 2023 – March 2024, Taguig City, PH

- Developed an AI-driven text classification chatbot with Flask, React.js, TypeScript, and Python; optimized ML models using Scikit-Learn and Keras.
- Completed training in Python, Data Science, and Machine Learning, applying best practices to project deliverables.
- Conducted research on related technologies to guide project architecture decisions.

Cloud Engineering Intern

Finastra Philippines Inc

May 2023 – August 2023, Pasig City, PH

- Built a Python-based Excel data cleansing script, accelerating report generation by up to 30%
- Managed Azure VMs and remediated CISA KEV vulnerabilities across Windows and Linux using Bash and PowerShell.
- Designed Power BI reports with Pareto charts to prioritize security fixes; updated bi-weekly dashboards.

IT Support Specialist

Orohealth Inc.

January 2022 – April 2023, Imus City, PH

- Migrated company website from Joomla to WordPress using Elementor, PHP, and SQL, enhancing performance and maintainability.
- Handled backend UI and database updates, collaborating with cross-functional teams to deliver seamless user experiences.

Certifications

- AWS Certified: Cloud Practitioner - CLF-02 – 2025
- Microsoft Certified: Azure Fundamentals - AZ-900 – 2023
- Microsoft Certified: AI Fundamentals - AI-900 – 2023
- Information Technology Security Python – 2021
- Microsoft Introduction to Programming Using Java – 2021
- FCC Responsive Web Design – 2019

Education

BS in Computer Science with Specialization in Software Engineering

FEU Institute of Technology – February 2024
