Azure AI Application Developer | Python • React • Azure OpenAI • SQL • AI Automation

Developer with fintech production experience building AI-enabled internal tools, workflow automation, and API-integrated applications using Python, React, SQL, and Azure OpenAI. Led AIAssist, a Python/React/Azure OpenAI solution integrated into company workflows, and won 2 hackathon awards, including a React/API project that improved throughput by up to 10x.

Skills & Certifications

- **Technical:** Python, Java, JavaScript, React, PHP, SQL, RPGLE, Azure OpenAI, Azure Databricks, Bash
- **Certifications:** AWS Certified: Cloud Practitioner - CLF-02 (2025), Microsoft Certified: Azure Fundamentals – AZ-900 (2023), Microsoft Certified: AI Fundamentals - AI-900 (2023), Information Technology Security Python (2021)

Experience

Associate Technical Engineer

June 2024 - Present

Finastra

Full-time

- Ranked 1st in CL/RPG, SQL, and case-handling probation training and consistently achieved 120% of KPI targets.
- Won 2 hackathon awards by building a React/API solution that improved throughput by up to 10x.
- Led a Python/React/Azure OpenAI generative AI solution that automated case-report generation in product workflows.
- Resolved complex client issues by developing SQL queries and CL/RPG programs, troubleshooting Java code, and performing root-cause analysis in Agile-style meetings with clients.

Automation & Development Intern

October 2023 – March 2024

CGI

Internship

- Developed an AI-driven text classification chatbot using Flask, React, TypeScript, and Python, applying Data Science and Machine Learning best practices and optimizing models with Scikit-learn and Keras.

Cloud Engineering Intern

May 2023 – August 2023

Finastra

Internship

- Remediated Qualys-identified and CISA KEV vulnerabilities across Linux and Windows systems using Bash and PowerShell, provisioned Azure Virtual Machines.
- Built Power BI/Python report automations that prioritized security issues and reduced dashboard update time by about 30%.

Web & Database Developer

January 2022 – April 2023

Orohealth Inc.

Contractual

- Replatformed the company website from Joomla to WordPress and built database-backed RBAC, transaction tracking, and data-visualization features using HTML, CSS, JavaScript, PHP, and SQL.

Projects

AIAssist

Lead Developer

Finastra

- Built a Python-based text-classification and prompt-engineering solution using OpenAI API, Azure OpenAI, and SFDC data to support clients and internal teams across multiple products; developed a React front end for demonstration and fully automated case report generation.

RapidAPI

UI Developer

Finastra

- Developed the React front end and API communication flow for a hackathon project, researching IBM tools and optimizing API processes to improve throughput by up to 10x based on SoapUI testing.

Education

Far Eastern University Institute of Technology

Manila, PH

Bachelor of Science in Computer Science with Specialization in Software Engineering

February 2024
